Brief background:

Currently approx. 266 students are following the course, divided into 11 problem solving groups. There is an associated lab course (administrated independently). There are 2 x 2 hrs of lecture each week and 1 problem solving session with student assistants. Lectures are given in 'Scandinavian'.

	Issues	Comments/actions
<i>Lectures (fø)</i>	Try to be more organized on the blackboard. Some wants more 'text' to explain the formulae and calculations.	ok
<i>Exercises (øving)</i>	Too few to make assessment.	
<i>Info/communication</i>	ok	
<i>Misc</i>		

Next meeting:

In the middle of the semester; tbd (to be decided).
